

Example informed consent form

Title of the study (simplified if necessary, but the same as mentioned in the information sheet)

I have read the information sheet for participants. I have had the opportunity to ask additional questions. My questions have been sufficiently answered. I have had enough time to decide whether to participate or not.

I know that participation is entirely voluntary. I am aware of my right to withdraw or end my participation from the study at any time. I do not need to justify that decision.

I know that certain people have access to my data. These people are listed in this information sheet. I am entitled to inquire and look into how my data are stored.

I consent to my data being used in the way and for the purpose stated in the information sheet. If for any reason my data would be used for research with another objective, I will be informed and again be asked to consent.

I consent to my data being stored for another 10 years after ending this study to permit further analysis within the context of this study.
